

Product Upgrade!

First Quality has made significant upgrades to Prevail Protective Underwear!

New Features include:

Skin Smart™ Fabric

Introducing this new Hypoallergenic fabric topsheet that contains Aloe, Chamomile & Vitamin E for skin wellness. Wearers will know they have the benefits of Skin Smart™ with the slight green tint to the topsheet and the new lavender acquisition layer.

Odor Guard™

Helps prevent odors from forming while wearing & after use for added discretion and comfort.

Printed Tagless Label

Sizing label is discreetly on inside of the back of the underwear. Like regular underwear, this indicates the back, for ease of use for wearer and caregiver.

This update will apply to the following products
